Skills

- **Programming:** Java, Python, C, JavaScript
- **Frontend:** HTML5, CSS3
- **Backend:** Java, Spring Boot, Hibernate
- **Database:** MySQL, Oracle
- **Core:** OOPs, DSA, Exception Handling, Multithreading, Collections Framework

Projects

MovieFlix Frontend Website Live Demo

HTML, CSS, JavaScript, REST API, JSON, TMDB API

- Developed and deployed a responsive movie discovery application using **HTML, CSS, and JavaScript**, integrating the **TMDB REST API** for dynamic movie data.
- Implemented movie search, ratings, posters, and detailed information using **REST API integration** and DOM manipulation.

ATM Card Security System GitHub

Java, OOP, Exception Handling

- Developed a console-based **Java ATM Card Security System** implementing PIN authentication, balance management, and transaction processing.
- Applied **OOP, input validation, and exception handling** to build a reliable and user-friendly banking application.

E-Commerce Website Front-End Live Demo

HTML5, CSS3

- Developed and deployed a responsive **e-commerce frontend** using HTML5 and CSS3, focusing on product presentation, navigation, and structured layouts.
- Designed a user-friendly shopping interface with responsive sections and visually organized product displays.

Experience

Tap Academy *6 Months*

Java Full Stack Intern

- Completed a **6-month hands-on internship** in Java Full Stack Development with AI, working with **Core Java, OOP, SQL, HTML, CSS, JavaScript, Spring, Spring Boot, and Hibernate**.
- Developed practical applications and strengthened skills in **backend development, database connectivity, REST APIs, frontend development, and problem-solving**.

Achievements

- Completed a hands-on **Java Full Stack Development with AI** internship at Tap Academy.

Certifications

- **Java Programming Certification – HackerRank**
  Validated Java programming skills through coding challenges covering OOP, control statements, exception handling, collections, and problem-solving.
- **Basic Java Programming Certification – SkillRack** *2023–2024*
  Demonstrated proficiency in Java fundamentals, including variables, loops, arrays, methods, classes, OOP concepts, and basic algorithms.
- **5-Day AI Agent Intensive Course – Kaggle — Google** *2025*
  Completed intensive training in AI Agents, LLMs, prompt engineering, tool integration, autonomous workflows, and real-world AI applications.
- **Java Bootcamp – LetsUpgrade**
  Completed hands-on training in Core Java, OOP, Collections, Exception Handling, Multithreading, and practical programming.

Education

Raghu Engineering College, Visakhapatnam 2023–2026
B.Tech in Artificial Intelligence and Machine Learning **CGPA: 76%**

Government Polytechnic, Proddatur, Andhra Pradesh 2020–2023
Computer Engineering **CGPA: 65.4%**

ZPHS Bhagyanagaram, Dornipadu, Andhra Pradesh 2019–2020
SSC **CGPA: 93%**
